

Product information:

- Black polypropylene tubes with white reflective tape, easy to detect and understand.
Each white ring; distance value = 50 yards or meters.
Improved accuracy where FM (Fairway Markers™) for short interval black tubes (without rings), positioned between Fairway Markers™ with rings: for 25 yd or 75 yd interval.
- 8% of men are colourblind, our black & white system will be preferred.

Installation and calibration:

- Record the distance from center of green to the 50 yd FM position.
Install 50 yd FM, and the other FM's with 50 yd distance between the FM.
Use [Golf Range Finder 4](#) in accurate RTK-GPS, or electronic wheel counter →.
- Mark the FM; [Immovable Obstructions](#) (with monthly position control?).
Very fast control when using golf carts and GEO-PULSE 4in accurate GPS system.

Product information:

Distance to green flag information available at club house notice-board.
Players take snapshot and have information about exact distances to green center and flagpole, not available from any system today!

Use our [Golf Range Finder](#) to calibrate the Fairway Markers™:
with 0,1 yd accurate – best in world - positioning.
Check position later; use the [Golf Range Finder](#) when driving a golf car.

Fairway Markers™

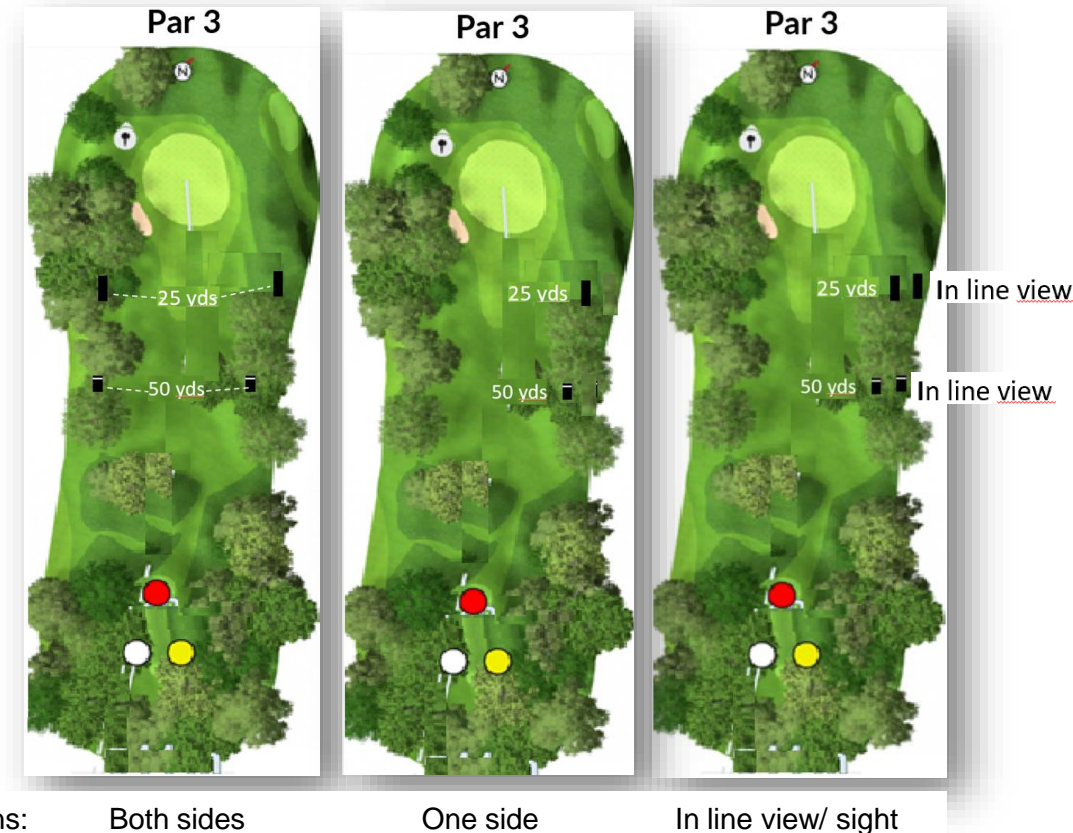

Dear Bjorn,

04.10.2024

Thank you for your email and query. There is nothing in the Rules of Golf to cover this and doesn't fall under the Rules. The Committee will choose what markers they wish to use.
From a Rules of Golf perspective, the marker posts would either be [Movable](#) or [Immovable Obstructions](#) depending on how they are positioned. I hope this can be of assistance for you.

Kind Regards, **Colin Edgar, Rules Assistant Rules of Golf** 

Fairway Markers™
