

FreshMiners and **AG – GPS**

Collaboration

Turns ideas into products.

GOLF RANGE FINDER

GEO-PULSE cutting-edge navigation device developed by the GEODNET Foundation.

10 times better accuracy than traditional GPS, with RTK-enabled GNSS receiver.

The perfect match for AG-GPS with granted golf RTK-GPS patents.

A real game changer!

0,1m accuracy, with slope values.

Golf Range Finder- 0,1m accuracy!

9,5 x 8,6cm

Mounting kit available for GEO PULSE.

Use in:

- Golf car
- Golf trolley
- Golf bag

0,1m accuracy

Bluetooth

USB powered < 1 Watt

The GEO PULSE with power bank installed in golf-bag pocket, use the external antenna.

GEO-PULSE:

GNSS antenna and RTK receiver for precise navigation apps.
High-quality triple-frequency patch antenna.
Dual-band GNSS receiver, Bluetooth, & Wi-Fi connectivity.

10cm accuracy when RTK fixed.
A free iOS & Android app; easy to connect to GEODNET RTK Network.

Integrated sensor fusion and IMU provide reliable tracking in challenging environments.

Order

Golf system, €250,- + VAT and freight cost. Introduction offer €20,- discount, valid Q1-2025

- Inclusive 2 power banks
- Installed, ready to use in a special box placed in a golf bag pocket
- Golf course mapping; ready
- Golf buggy; ready
- Golf cars; ready
- Golf bag, testing Q2-25
- Interested; order or get more information from: bjorn.roness@ag-gps.net
